### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the specification, page 8, paragraph [0024], change "motors 161 and 171" to motors 162 and 172.

2. The following changes to the drawings have been approved by the examiner and agreed upon by applicant: insert label "Prior Art" to Figure 1. In order to avoid abandonment of the application, applicant must make these above agreed upon drawing changes.
3. New corrected drawings in compliance with 37 CFR 1.121(d) are required in this application because the submitted drawings are informal. Applicant is advised to employ the services of a competent patent draftsman outside the Office, as the U.S. Patent and Trademark Office no longer prepares new drawings. The corrected drawings are required in reply to the Office action to avoid abandonment of the application. The requirement for corrected drawings will not be held in abeyance.
